## Introduction

Hi,

First of all I'd like to thank you for downloading this report. I hope you'll find it useful.

I have been in the paid survey business for the past three years and I am going to do my best to help you learn more about this amazing opportunity.

Paid Surveys are great, but you can easily get burned if you don't know what you are doing. I was once a paid survey novice, just like you, and I made many mistakes that could have been avoided if I had someone to guide me...

The purpose of this course is to educate you on what paid surveys really are and how they work. It is jam packed with insider tips that can help you getting started successfully and with top surveys to take.

Learn and prosper!

## **Part 1: Is your opinion really worth money?**

I came across paid surveys when I spent days searching for jobs on the Internet. One day I visited a market research web site that offered \$30 for answering a questionnaire. I didn't believe I would ever get the money but I had nothing better to do on that day so I went ahead. It took about 20 minutes to complete. When I received a \$30 paycheck from this company two weeks later, I understood it was for real!

All of this was new for me... But paid surveys are not new! Opinion research has been used by marketers for decades as a way to explore customer needs. The reason is simple: The better they understand us as consumers, the more money they can make.

Every year companies and institutions spend over 280 Billion dollars on marketing efforts to convince consumers to buy products and services. That's huge!

A significant part of this money is directed to opinion research because the main challenge that corporations face is how to get into the consumers' heads. Thousands of innovative products are released every year but many of them fail in the marketplace. These corporations invest tremendous efforts to develop new successful products but they often miss what consumers really want. For marketers, it's a fatal flaw. Failing to understand consumers leads to marketing disaster!

A famous example of an innovative product that went wrong in the marketplace is ThirstyDog and ThirstyCat, the first bottled waters created especially for dogs and cats. The water was loaded with vitamins and minerals and its carbonated flavors included crispy beef for dogs and tangy fish for cats. This product was promoted through television ads, radio spots, billboards, coupons in newspapers

and point of purchase displays. It was distributed through supermarkets and pet stores. The result was a big flop! The product concept was original but it wasn't accepted by consumers. Millions of dollars were invested to develop and promote this product but all this money was spent in vain because the marketer didn't get into the consumer's head. An extensive survey conducted among pets owners could have made a difference and saved millions of dollars invested in this product.

**Savvy marketers have used surveys for years as a way to explore consumer needs.** People like you and me are invited to give their opinions on various topics and this information is used to elaborate their marketing strategies.

Because they need to know what consumers want very quickly and because very few people will volunteer this information for free, corporations are willing to pay for our opinions. **It makes perfect business sense for them and it's a great opportunity for you and me.**

To make it short and to the point, your opinion is really worth money!

How much? I'll answer this question in the next section.

Before you read on, I recommend you to join these two excellent survey companies in order to get started right now. Every beginner should be registered with them.

## Part 2: The Most Popular Surveys to Take

Today the most popular surveys are:

- **Online surveys:** You give your opinion on the Internet. It's easy and fun.
- **Focus groups:** You participate in an interview conducted among a small number of individuals. These discussions are animated and interesting. They pay the best.
- **Shopping surveys:** You are paid to shop at the mall or to eat at restaurants! No gimmicks! All you need to do is fill out a questionnaire about your customer experience.

You can get paid:

- **\$5 - \$75 to take online surveys**
- **\$10 - \$50 to participate in shopping surveys**
- **\$20 - \$250 to participate in focus groups**

The best surveys pay up to \$250 an hour because these companies know this information will give them an edge in the market and they will make more profit for themselves.

Remark: Let me make myself perfectly clear. I am not claiming that you will make \$250 an hour all day and every day... I'm also not claiming that you will earn \$75 for every online survey you complete. But from experience I know that you can easily earn extra money every month, working in your spare time, with hundreds of online paid surveys and mystery shopping jobs that are sent directly to your email. Sometimes you will also receive an invitation for a 1-2 hour focus group that can pay as much as \$250 per session!

Let's explain how you can profit from every type of survey.

## Online Surveys

Online paid surveys are a new medium used in marketing research for gathering data on consumer behaviors. People are invited to fill out forms on the Internet and to give their opinions on various topics. Participants like you and me are rewarded for completing these surveys.

At least 50% of consumer opinions are gathered with [paid online surveys](#) and it is easy to understand why: With paid online surveys, marketers can collect consumer opinions quickly and in a cost effective way. Giving incentives to web participants is much cheaper and more efficient than surveying customers on-site, over the telephone or through the mail.

Marketers have been using opinion research for decades as a way to explore customer needs. Paid online surveys are now reinventing the way it is done and it is a great opportunity for all of us.

I recommend you to join these online panels to increase your chances of receiving paid surveys:

- Lightspeed Research: [U.S. Join here](#) / [Australia Join here](#) / [UK Join here](#)
- Greenfield Online: [U.S. Join here](#) / [Canada Join here](#)
- ACOP (international) - [Join here](#)

## Focus Groups

A focus group is a personal interview simultaneously conducted among a small number of individuals; the interview relies more on group discussion than on a series of directed questions to generate data. It is also called a group in-depth interview.

Unlike the one-way flow of information in a one-on-one interview, paid focus groups generate data through the give and take of group discussion. Listening as people share and compare their different points of view provides a wealth of information — not just about what they think, but why they think the way they do.

When being recruited, potential participants receive a brief description of what the focus group will be about, as well as assurances that their participation is entirely voluntary kept confidential.

With focus groups, you will be invited to spend 1-2 hours with a group of 6 to 12 people to discuss a product, service, brand or any other marketing concept. The meeting is typically held in a pleasant environment and refreshments are served. During this group session there is **interplay of thoughts and ideas** to get insights on consumer attitudes and perceptions.

### There are many benefits to focus groups:

- A wide range of information can be gathered in a relatively short period of time and the market research company can explore related but unanticipated topics as they are raised in the discussion.
- Focus groups are very well paid – participants can make **up to \$250 per session**.
- These discussions are animated and interesting. **They can be a lot of fun.**

Remark: because they pay the best, we give a high priority to focus groups in our [paid survey database](#). One out of hundreds company listed there is Cobbey Market Research. You can join it now:

## Mystery Shopping

Simply put, mystery shopping is very much like everyday shopping, but for money! You just need to be attentive to some details during your shopping trip and report them to the mystery shopping companies that hire you. Doing so, you can get paid for eating out at first-class restaurants, shopping at the mall, staying at hotels and even going to the movies.

**Let's take a mystery shopping assignment at a shoe store for example:**

**Your mystery shopping job:** You go into the ABC Shoe Store on a Monday afternoon and you notice posters displaying a promotion on all Nikes (20% off) in the store display window. A salesman named "Andrew" greets you and mentions you can get an additional 20% off on all Nikes. You thank him and then walk over to the Nike shoe section. You pick up one pair of Nikes. Another salesman named "Michael" approaches you and asks if everything is alright. You tell Michael you are wondering what the difference is between this Nike shoe you are holding and the pair of New Balance shoes near it. Michael gives you some details about the different materials used, manufacturing process etc. You tell him you want to try a pair of Nikes in a size 10. He brings them to you. You try on the shoes but they are too big. You ask for a smaller size. Michael comes back with a size 9. They fit. You tell Michael you want to take the shoes. He asks if you would like a pair of socks with the shoes. They're 50% off when purchased with a pair of shoes. You agree to buy the socks too. Michael smiles and rings up everything quickly and efficiently. You leave the store feeling like you got a good

deal and good service. You behaved like a normal shopper and nobody would think you are a mystery shopper.

**Your mystery shopping report:**

- **You fill out a questionnaire** detailing your customer experience and answering specific questions about the promotion posters, whether the salesman greeted you, whether the salesman told you about the socks, and about other add-on products, etc.
- **You send this questionnaire by fax or email** to the mystery shopping companies that hired you for this assignment.

**Your payment for this mystery shopping job:**

- **You keep the Nike shoes for free.**
- You get paid **\$15 to \$50.**

Did you ever dream of getting paid for shopping, eating out at restaurants or going to the local theater? Now you can make that dream a reality as a mystery shopper.

The benefits of mystery shopping are plenty. You get free stuff and money. Your hours are flexible. Your job is varied and fun and you have the satisfaction of helping to improve the quality of services available for consumers.

[Maximum Paid Surveys](#) lists over 250 mystery shopping companies. Jancyn Evaluation Shops is one of them. You can join it by clicking here:

## **Part 3: Tips to Make Your Survey Experience Successful**

### **Tip #1: Sign up to as many legitimate survey sites as you can**

The more sites you are affiliated with, the better your chances are of being eligible for more surveys.

### **Tip #2: Accept every online paid survey opportunity you can.**

This is to establish your reliability as a survey worker. Once you show you are dependable, you will get more of the higher paid surveys in your mailbox. Later on you will be able to resign from the lower paying survey sites if you wish

### **Tip #3: Combine all kinds of surveys**

To earn the best possible income, you should combine all kinds of surveys: Online surveys, focus groups and mystery shopping jobs. Taking online surveys is fine but taking online surveys only is missing out on some of the best opportunities to earn money! According to our experience top performers devote at least 50% of their time to Mystery Shopping and focus groups because they make the most money with it and it's fun.

Remark: At [Maximum Paid Surveys](http://www.maximumpaysurveys.com) members get access to a board of focus groups in selected cities and a board listing thousands of current mystery shopping surveys to take so it's easy to get started.

### **Tip #4: Set up a dedicated email inbox**

Once you start registering with a lot of companies, you will start receiving plenty of invitations and you definitely don't want to miss any of these opportunities. For this reason, we highly recommend setting up a separate email address for

everything related to paid surveys. By having a separate email account dedicated to surveys, your survey-related emails won't be mixed up with other emails and you won't miss any survey opportunity. You can set up a free email account at Yahoo.com or Gmail.com. In our opinion, these are the best free email services on the web.

**Tip #5: Make your life easier and save your fingers by using Roboform**

[Roboform](#) will automatically fill in your information when signing up for paid surveys. This will save you time and can usually be completed with one mouse click.

**Tip #6: Fill out the profile section of paid survey sites**

When you are participating in online paid surveys, a lot will hinge upon your personal profile. Where you live, your age, and your interest preferences. It will depend upon whether the companies needing information are interested in hearing from you according to your profile.

When you fill out your profile, make sure you check everything you are even remotely interested in or know anything at all about. This will determine how many surveys you will be sent. The more you have on your profile, the more surveys you will be eligible for. Even if some of the subjects are remotely interesting to you, be sure to include them.

**Tip #7: Bookmark paid survey sites in a separate folder**

Be sure to bookmark sites where you are required to log in. You may want to create a folder with separate files for each of your paid survey sites and keep them in a folder in your documents. This will help to keep you organized and you will have your user name and password at your fingertips. When the sites are

bookmarked, you will be able to access the site easier and check to see if they have any surveys available for you to take.

**Tip #8: Open a PayPal account**

Opening a PayPal account might be a good idea, if you don't have one already. You can go to [www.paypal.com](http://www.paypal.com) to sign up. Some of the paid survey sites use PayPal to send payment. It is a fast and easy process, and your information is safe with them.

You can join here two more survey panels:

- Valued Opinions - [Join here](#)
- eSearch (international) – [Join here](#)

## **Part 4: Don't make this beginner's mistake!**

If you joined the survey panels recommended in former parts of this course, you are probably very excited about joining more. I was too when I first discovered this amazing opportunity. I was so eager to start making money that I began signing up like crazy with all the survey companies I could find.

Later I discovered that it was a mistake!

What's wrong with joining as many survey companies as you can? Nothing is wrong. In fact, the more survey companies you join the more surveys you will be invited to complete, and the more money you will make...

The problem is which survey companies you choose to join. Signing up with all survey companies without discerning which ones are legitimate and which ones are not is a BIG MISTAKE.

The really bad thing is that you will get disappointed with paid surveys just because you didn't register with the right companies!

**To make it really work you must register with legitimate companies only!**

How can you discern between good and bad survey companies?

Legitimate survey companies comply with the following practices:

- Your privacy and the privacy of your answers are ensured.
- You will not be sold anything under the guise of research.
- You will get paid on time for the surveys you decide to take.

Illegitimate companies typically do the following:

- They try to sell you something and in exchange they promise great rewards.
- Most of the time nobody gets these rewards!
- The Terms & Conditions of these companies (in small print at the bottom of their web sites) state they can sell or distribute your personal information without asking for any further permission!

**If you really want to make money and have a lot of fun with paid surveys, you must join legitimate companies only.**

Let's take an example. Do you remember the i-Say panel I recommended before?

Ipsos i-Say is considered one of the leading online panel companies in the industry. Since 1994, it has been providing consumers with the ability to voice their opinions by participating in online research surveys and focus groups. Last year, it paid its members \$4,000,000 in cash! Ipsos i-Say is an excellent example of a legitimate survey company.

Of course other companies I mentioned in this course are legitimate as well. I bring you here two more legitimate surveys to join:

- NPD (U.S. and Canada) – [Join here](#)
- Media Curves (U.S.) – [Join here](#)

## **Part 5: Make sure you get surveys!**

I receive many emails from people who inform me that they joined a survey company and haven't received any surveys yet.

I did a little research and discovered that most people don't know that **registration is a two step process**. This is why some people never receive surveys!

Let's take an example. Do you remember the [Greenfield Online](#) panel I recommended you before?

Registration is very easy and takes only 2-3 minutes. After you have registered you will receive an account where you can track your earnings, see the surveys you have completed so far and ask for your payment.

The process is the same for other panels as well!

However, most people complete the web sign-up forms and think they are done. Then they get upset because they don't receive any surveys. It is clearly stated on these websites that after you complete the web forms, you will receive a confirmation email with a welcome survey. You must complete that welcome survey in order to receive any subsequent surveys.

If you don't complete it, they will interpret it as a lack of interest and never contact you again.

So always remember to check your inbox for the welcome email after you register with a survey company.

## **Part 6: How Getting Paid For Taking Surveys Works**

It's a simple 3 steps process to make it work for you:

### **Step 1: Join a professional paid surveys network**

The most difficult part about getting paid with surveys is finding an extensive list of companies, filtering out all the scams that run on the Internet, keeping only legitimate companies and listing the best opportunities first so money comes faster.

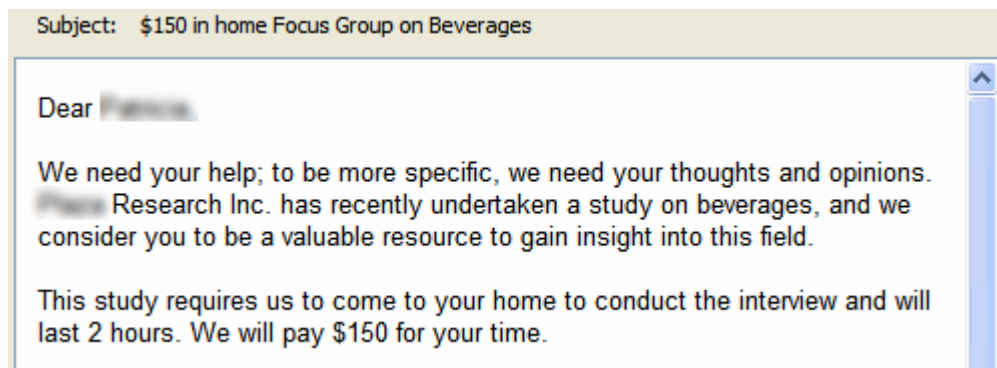

That's a lot of work!

Remark: [Maximum Paid Surveys](#) bring you the most professional resource of paid surveys, focus groups and shopping jobs on the Internet. You will find all you need to succeed. Click [here](#) to learn more.

### **Step 2: Take Paid Surveys, Focus Groups and Secret Shopping Jobs**

All these opportunities want the same thing: Your opinion! This is why you should combine all of them and join a professional network including all kinds of surveys (online surveys, focus groups and mystery shopping evaluations).

This is the type of invitation you can receive:

\$150 for 2 hours of your time... Wow! This invitation was sent by one of the best paying market research companies listed in at [Maximum Paid Surveys](#).

Important remark: I don't claim here that you will get \$150 surveys all day and every day... What I can guarantee is a deluge of offers paying different fees for your opinion: \$5, \$8, \$12, \$20, \$50 and more. You always know up-front what you will get. With all of them together you can easily earn money every month with invitations sent directly to your email.

### **Step 3: Get Your Money, Free Products and Prizes**

Many companies pay cash but there are also other forms of rewards to motivate people to participate in [paid online surveys](#). You can get free products, gift certificates, be entered in a sweepstake or get "points" that can later be redeemed for money.

How much you will get paid depends on the specific survey, focus group or shopping assignment that you have completed. There are companies that pay instantly via PayPal and others that will send you a check by mail. You'll always know the details in advance before you participate.

Remark: The best paid surveys are the ones that pay cash! This is why Maximum Paid Surveys lists them first.

>> Learn more about [Maximum Paid Surveys](#)

Maximum Paid Surveys brings you over 760 companies that are guaranteed to pay. You just need to login, choose your country and join the best paying companies.

## **Part 7: Get evidence it really works!**

Most people are excited to start taking paid surveys but many of them don't do it because they are skeptical. They don't really believe that they can get paid just for sharing their honest opinion. They need evidence to believe it:

**“Did you say PAID surveys? Show me the money!”**

To answer this question I recommend you sign up with another legitimate company that has grown to over 1.5 million people across 190 countries. With this company, people earn money by participating in online surveys and to date this company has paid over **\$18,000,000 in cash!**

[Survey Savvy \(International\) - Join Now](#)

**Sign up before you continue reading!** Otherwise you will not really understand what I'll show you.

After you register, login to your account and click the “My Earnings” tag and then the “Request Payment” tag. Because you just registered now and haven't taken any surveys yet, you will see \$0. After you take surveys, your balance will increase and you can have this money sent to you.

You see a screenshot of the same website, except that this Survey Savvy account belongs to me. I have taken many surveys with this company. At this point, my earnings are \$581 and I can decide to redeem the amount whenever I want. **Your account can look the same!**

You can see here two paychecks previously sent by this company: \$640 and \$460 for surveys completed a Survey Savvy!

I hope that you'll achieve the same results soon with this great market research company and other surveys that are willing to pay for your opinions.

**Remark:** Survey Savvy is one out of 760 legitimate market research companies listed at [Maximum Paid Surveys](http://www.maximumpaysurveys.com). All of them reward survey takers for their opinion.

## Part 8: Are survey databases a waste of time?

How are you doing with surveys?

I hope you are receiving many invitations but...

You should know that **joining only 4-5 companies isn't enough to receive daily surveys**. Each market research company conducts its own surveys and only people registered with them will be invited to take surveys. The more companies you sign up with, the more surveys you will receive! It's as simple as that.

I know people who make hundreds and sometimes thousands of dollars per month doing surveys. This income can be achieved only if you are registered with at least 100-200 legitimate survey companies. Joining a few survey companies is a good start but it isn't enough to build a new stream of income.

This is why a professional database can be very useful to people who are new to paid surveys. You need to pay a one time fee but this small investment is returned from the surveys you receive.

I have registered with over 1000 companies since I started taking surveys three years ago. I spent a lot of time finding these companies and I discarded many of them because they were scams!

With a professional database you can skip this hassle. You get access to a huge collection of legitimate survey companies and the best opportunities are prioritized so you can make a maximum amount of money as easily and as quickly as possible.

Why work hard when all the hard work was already done for you?

Maximum Paid Surveys was set up to be the most authoritative collection of legitimate paid surveys on the Internet. Anyone using this program will save a tremendous amount of time, hassle, and "trial and error". It took us years of hard work to find, evaluate and keep track of all the real opportunities. The result is a professional database that makes it easy to get paid for your opinions.

Below you can find one more survey company that every beginner should join:

## Success Stories

"As a Stay-At-Home-Mom to a preschooler and a baby, finding a part-time job to fit my schedule was just too hard, but I really needed some extra income to pay for all the extras and surprises that pop up. I tried other things but none were as profitable and easy as *Maximum Paid Surveys.com*. I can work when it is convenient for me, usually once they are in bed. I fill out simple surveys online and earn cash. It is so easy and so perfect for anyone who has extra time and wants to earn extra spending money!"

Jennifer Savell, Ball Ground GA

"I cannot think of an easier way to making money than with *Maximum Paid Surveys*. I get to choose from different types of surveys, eat at restaurants for free and review the restaurant and review shopping purchases. It's simple and beneficial to the public and my pocketbook. I am not making billions of dollars but the extra money is keeping my credit card paid off and allowing me to have more cash to do my hobbies. Thank you for helping me make extra money and work from home at my leisure time."

Micky Long, Wonder Lake IL

"I love working from home by doing paid surveys. I do not have to pay for a babysitter for my children, I save money by not having to drive to and from work and I get to spend more time with my family.

Our family now has the luxury of taking more family trips, going out for dinner and enjoying more family activities together. By taking time to do paid surveys we have extra income to pay for more fun things.

I highly recommend joining *maximumpaid surveys.com* to add extra income and fun into your life. "

Kelley Lang, Waukesha WI

"I enjoy using [maximumpaidsurveys.com](http://www.maximumpaidsurveys.com) to take surveys. It is nice to add more money to my savings account which will greatly help me especially for my ever growing healthcare expenses and also during the holiday shopping season. I'm now able to make a great list of items to purchase for Christmas and still have money left over at the same time. I'm easily able to do it now with the funds I have earned through earning money by taking surveys, in addition to working in data entry work too. It's great to find work available everywhere to make extra money. I also received more information about mystery shopping which is another great way to make more money too. I would recommend this to everyone looking for a way to bring in income."

Nicole Leon, Chino Hills CA

"I joined your site a few months ago and I was very excited to make money for answering surveys. As a mom at home I needed a flexible job that I could set up around my kids and it looked to me as the ideal solution. At this time we were really short on money and I couldn't imagine that these surveys and shopping jobs would help so much make ends meet!

I was a little anxious when I started because I didn't know if it would work for me. [maximumpaidsurveys.com](http://www.maximumpaidsurveys.com) helped me overcome my doubts. I read attentively the step-by-step guides that explained very clearly what to do and I clicked as much as I could on the registration links to these survey companies...

Every week I received more and more surveys and I started to make my first dollars. Then I got two calls! The first one was for a discussion session on baby products paying \$75 and the second was from a mystery shopping company that paid \$30 to go to an amusement park with my kids. I couldn't believe it!

I have now joined over 300 companies and I get quite often such calls and many surveys in my email box. I make about **\$250 per week** with all these companies working at it in my spare time. I get more invitations than what I can take so with time I got more selective on taking invitations. The great thing here is I can decide whether to stay at home (online surveys) or to work outside (mystery shopping).

Maximum Paid Surveys has provided me more service than I could ever dream!

Thank You!"

Patricia J., Houston TX

"Sam, I signed up this week for the companies you recommended to me. Those companies have paid me roughly **70 dollars in actual cash** from taking surveys from my living room and home computer!!!!

Wow I am surprised! In addition I even got paid for sitting in on a 60 minutes online focus group a total cash amount of **35 dollars!!!!!!**"

"I just wanted to let you guys know that I am more than happy with **Maximum Paid Surveys**. I am amazed at the number of surveys invitations and shopping assignments that I receive every week. That's real fun and good money. I recommend it to all my friends."

Amanda W., Seattle WA

"I just wanted to drop a quick thank you note. For a long time I have been searching how to make money online but all I have found were scams. It was such a waste of time! When I read about getting paid to take surveys, I was skeptical at first but it seemed to make sense and I decided to give it a try. I don't regret I did! In the first month I joined Maximum Paid Surveys I made **\$186 in cash**. Now I make it per week and I feel it goes into high gear. I receive more and more invitations to participate in surveys and shopping jobs. It's great for anyone wanting to work part time. For a student like me, it's the perfect job. Thanks for making this possible".

Paul C., Boston MA

"First, thank-you. I've only been registered for **2 days** and already I'm getting paid surveys. My first survey was on "bottled water and sports drinks". It paid **\$15** and took 30 minutes. My second survey was on "Shoe Name Brands and Styles." It also Paid **\$15** and took me about 25 minutes. I am receiving more and more invitations. It's great! Thanks again for everything."
